Preliminary Amendment

Dear Madam or Sir:

Please enter this Preliminary Amendment on my Divisional Patent Application Number 10/671,415. This Preliminary Amendment contains three enclosures for pending examination.

1) Substitute Set of Claims. Please delete the set of claims, numbered claim 1 to claim 3, which I provided in my original application filing on September 25, 2003. I delete these claims without prejudice, and may later enter them for examination in another application. Please enter the substitute set of claims enclosed herein, numbered claim 4 through claim 15, a total of 12 claims, of which three are independent claims. Hence, I do not owe additional claims fees. The substitute set of claims addresses the divisional group of astrological charts, which I had presented in earlier priority applications, and which were subjected to division in #09/849,582. I select this divisional set of claims without prejudice to the other divisional groups, which I intend to pursue either in divisional applications off #09/849,582 or off this application, #10/671,415.

2) Abstract. Please replace the originally filed abstract with the abstract enclosed herein. This replacement abstract focuses on the group of invention related to astrological charts.

3) Change of Address. Enclosed is a Change of Address which I faxed last week to OIPE and may be already entered by the time you receive and enter this Preliminary Amendment.

Please change the Title of my Application to: "Astrological Charts and Plotting Devices". Thank you.

Sincerely,

David Andrew D'Zmura (pro-se independent inventor; b. 11/21/1960)
